

Dining Table

FOR EVERY OCCASION

The Dining Table - designed in 1937 is simple and elegant. Function meets form and the distinctive, light look of the Dining Table makes it suitable for any purpose at home, at work, or in the meeting room.

The Dining Table can be ordered with a lightweight extension leaf enabling it to be transformed from smaller to a larger table ease. When not in use the extension leaf stands vertically beneath the table top and does not impede upon the leg-room available.

The Dining Table is available with chromed legs and the table top in a variety of finishes: laminate, natural or light oak as well as black oak. The table tops are available in three different sizes or the table extension system.

Finishing:

Table Top				
	natural oak	black oak	laminated plate	walnut
	+	+	+	+
Legs				
	25 mm chromed steel tube
