

Mirror

A REFLECTION OF EXCELLENCE

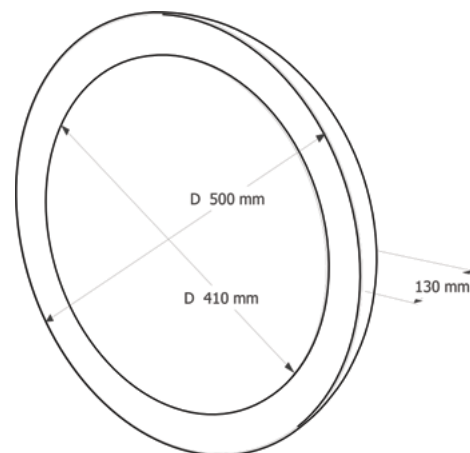

The Mirror is based on Poul Henningsen's original design from the 1940's. PH's Mirror is completely true to the original design, yet updated for the 21st century to be available in four colour ways on the back of the frame to co-ordinate with the ever-popular Poul Henningsen lighting range.

The Mirror is illuminated from behind and can be used in conjunction with other PH furniture or can hang alone as a statement piece in it's own right, with many possible uses around the home.

The Mirror is available in two sizes and the metal frame is coloured on the back in one of the four well known colours that is being used for the top metal shades on the PH table lamp 3 1/2 - 2 1/2.
